

I am writing as a concerned citizen that changes in the LPFM broadcasting service may prohibit me from listening to KLOVE. If these proposed changes force KLOVE off the air in my community and area, I would only have one other choice for Christian radio. I have been a financial supporter and listener of KLOVE for almost eight years now and like the format they use and the educational programming they provide for my family. I know no matter what time of the day or night I will be able to listen to quality programming and not find anything offensive at any time. In my community and region, this is only one of two stations that provide this type of format.

Please do not force KLOVE from the local FM translator.

Sincerely, Curtis Walter
